JANUARY 1932

Friday 1

Louisburg, N.S.

Comparatively mild and remarkably clear with light northwest wind. A perfect day.

Our annual New Year family gathering was held at our home as usual.

The following were present at dinner:

Mrs. Z.W. Townsend, Mr. & Mrs. Fletcher Townsend, Mr. & Mrs. Emerson Grant, Wesley Townsend and Mrs. J.N. Spencer, Emeline and myself.

For supper: Mrs. Z.W. Townsend, Mr. & Mrs. Fletcher Townsend, Wesley Townsend, Mrs. J.N. Spencer, Emeline and myself.

There is excellent skating on the lakes and ponds and the great majority of the young people of the town and some of the older ones spent a large part of the day on the ice.

The streets and all the open fields are almost entirely bare of snow, a condition very unusual for this time of the year. Up to the present time we have experienced very little frost.

Death of Simon Hare

The death occurred at 7 P.M. of Simon Hare. Mr. Hare had been in failing health for the past two years, but was able to be up and around until about two months ago. He was a native of Newfoundland but had made Louisburg his home for upwards of thirty years. He was in the 52nd year of his age.

Mr. Gordon Ott, Anglican Student Minister, who has been an assistant to Rev. T.F. Draper since May 10, 1931 left here today to resume his studies at Kings College, Halifax, N.S.

At 3 P.M., in company with William Phalen and John A. MacDonald, I attended the funeral of the late Simon Hare, The funeral service was conducted in St. Bartholomew Church by Rev. Mr. Whally of Sydney, assisted by Rev. T. F. Draper of Louisburg. At the grave the service was conducted by Rev. Mr. Whally. Monday 4

Louisburg, N.S.

Mostly clear and comparative mild with moderate to fresh northeast wind.

At 7:30 P.M. I attended and presided at a special meeting of the Town Council. This meeting was called for the purpose of dealing with the application for relief received from Mr. Diering and Mr. King of Havenside. JANUARY 1932

Tuesday 5

Louisburg, N.S.

Mild and remarkably clear with light northwest wind. A perfect day. In all my experience I do not remember seeing a more beautiful January day.

Attended and presided at a regular meeting of the School Board at 7:30 P.M.

Commissioners present: Peters, MacDonald and Bates. At this meeting, Miss Mary Hiltz of the Primary Dept. was granted leave of absence, for the purpose of completing her course in normal school. Miss Rachel MacLean was accepted as a substitute until the end of the term.

Hike through the Woods

At about 9:30 A.M., I went for a "hike" through the woods, returning home at about 4 P.M. After leaving town I went out Whalen's Road to where it intersects the French Road which runs from "Old Town" to the Sydney Road. Thence following the French Road until I came to the Old Ned Holland Farm. From this farm I followed an old road in a southwesterly direction until I came to a marsh with a brook running through it, called "Nicholas Brook". Along the northern side of this marsh skirting the woods at the foot of a hill I discovered a stone wall about 3 or 4 feet high, 4 feet thick and with the exception of two breaks of 5 paces each, extending southeast and north west for a distance of about 170 paces. This wall is mostly covered with moss and is of ancient construction. Just for what purpose it was used I am not prepared to say, but am of the opinion that it was constructed as a defense against the attack of an enemy during the siege

operations against Louisburg in 1758. From thence, I followed the brook all the way up to where it branches off from Forbes Brook, and thence To Kelley's Lake. From Kelley's Lake to Stewart's Lake, back to Kelley's Lake. From Kelley's Lake by a wood road to Sydney Road. Thence via Sydney Road, French Road to the Bridge on "Nicholas Brook." Thence direct through the woods to town, passing north of "Wolfes Camp".

JANUARY 1932

Wednesday 6

Louisburg, N.S.

Mild and clear becoming cloudy about the middle of the afternoon. Light northerly wind which changed to southwest. An ideal day. Rain during the night.

In company with Emeline, I attended choir practice in the First United Church at 9 P.M. At the close of the practice the choir held their annual business meeting. Miss Margaret Stacey, Secretary Treasurer, reported \$187.00 raised by the choir during 1931 with disbursements amounting to \$ [blank], leaving a balance on hand of \$ [blank]. On motion it was decided to donate \$50.00 of this balance to the regular church fund. Owing to the fact that Miss Stacey is leaving shortly for Montreal, to enter the Royal Victoria Hospital as a Student Nurse she tendered her resignation as Secretary Treasurer, which was duly accepted. The following officers were elected for the current year: Chairman: M.S. Huntington, Choir Leader: John A. MacDonald, Secretary Treasurer: Miss Bessie MacInnis.

Hike to Landing Coves

At about 11 A.M. I started on a trip to the Landing Coves, via Mr. Cross's field and a path across the northern side of the marsh. (The landing coves are situated about one mile east of the Lighthouse). On arriving at the deepest cove I cruised through the woods in search of any trace of General Wolfes' 1758 encampment. In a short time I was rewarded by finding a stone entrenchment or breastwork which had evidently been erected to defend the camp. This work is about 2 or 3 feet thick, and in some places 2 or 3 feet high. It is built in sort of a semicircle, is now almost entirely covered with moss, and is about 175 paces in length. At the extreme southwest end of this wall, a small hill rises abruptly to a height of about fifteen feet about the surrounding ground.

Thursday 7

Louisburg, N.S.

Rain during the early morning, continued until shortly before noon. Cloudy during the afternoon, clearing during the night. Wind southwest.

Attended and presided at a regular meeting of the Town Council at 7:30 P.M. Councillors present: Lewis, Bates, Peters and Matheson.

(Continued from preceding page)

On investigation I found almost the entire top of this elevation enclosed in a breastwork similar to the one I have already described. The length of this enclosure is about 40 paces and the width about half the length. I traveled around for considerable distance in search of old foundations or other signs of the encampment, but was successful in finding only one. This appeared to be the foundation of a building, about 12 x 15 feet in size. This foundation is on the west side of the eastern cove, and quite near the old trench which forms a semicircle around the head of the Cove. The stone entrenchment which I have described are, I should judge, about 200 yards in a southeasterly direction from the head of the eastern cove, and are situated on heavily wooded ground. After leaving the Coves I traveled southwesterly through the woods in the direction of the Lighthouse, in the hope of finding some trace of the road which was constructed from the Landing Coves to the Lighthouse Battery, during the sieges, but was unsuccessful. On reaching the line of old trenches, about 200 yards east of the Lighthouse, and which run in a northerly direction from the shore for a distance of at least 400 yards, I headed northwesterly, coming out to the Main Road and returned home, arriving at about 4 P.M.

JANUARY 1932

Saturday 9

Louisburg, N.S.

Cloudy and mild with light west to southwest wind.

Miss Margaret Stacey, who has been employed by me as Clerk in my shop since March 25, 1929, terminated her services at 10:30 P.M. today. Miss Stacey intends leaving for Montreal on or about the 18th of this month for the purpose of entering the Royal Victoria Hospital as a student nurse. During the time she was in my employ, I always found her very trustworthy and dependable and her services generally satisfactory.

Owing to the business depression, of which our town has its share, I intend to carry on without a clerk for a time, or until business conditions improve.

Emeline has signified her intention of coming to my assistance, during her spare time.

Death of Mrs. D. Stanley Hooper

The death occurred today at Sydney of Mrs. D. Stanley Hooper. Mrs. Hooper was the daughter of Mr. & Mrs. R.R. Morrison of Gabarus. Mr. and Mrs. Hooper were residents of Louisburg for upwards of twenty-five years, where Mr. Hooper ran a general store as well as an insurance business. They removed to Sydney about four or five years ago. Mrs. Hooper later returned to Louisburg and occupied the old home until it was destroyed by fire in the spring of 1931. The funeral is to take place at Gabarus on next Monday.

Visitors from Pennsylvania

On the arrival of the Morning train three men from Pennsylvania, U.S.A. called on me for the purpose of getting some information respecting the early history of Louisburg. Their names were: Mr. Graham, Mr. Hoffman and Mr. Lovell. I accompanied them to the National Park at about 11 A.M. and spent about three hours showing them the various points of interest and in giving them a talk on the Louisburg of the past. Two of these men are connected with the Pennsylvania Railway and have been at the Steel Plant at Sydney for a day or two inquiring into a new process for manufacturing rails, mostly discovered by Mr. I. C. Mackie of Sydney. On coming back from the park, I introduced them to Mr. A.A. Martell, M.L.A. and after some time spent in conversation mostly in connection with the historic past of our Town, we escorted them to the water front and to the train which bore them back to Sydney.

At 7:30 P.M. I attended the "Week of Prayer" service in the First United Church. Rev. W.B. Bezanson, of the Baptist Church at Glace Bay was in charge of the service. Mr. Bezanson arrived on the evening train and is our guest while in town.

Discovery of Remains of Duc d'Anville. Workermen while engaged in excavating in the ruins of the Kings Chapel at the Louisburg Historic and National Park at about 10 A.M. today unearthed what is believed to be the remains of the Duc d'Anville, a French Admiral who in 1746 while in command of a large Armada which was sent out from France for the capture of Louisburg and the destruction of New England cities, died at Halifax, N.S. and whose body in 1749 was removed to Louisburg and buried at the foot of the high altar in the Kings Chapel in the Citadel.

FIRE

Fire totally destroys residence of Capt. Trenholm of Havenside.

The alarm sounded at 1:55 A.M., I immediately started for the scene of the fire with some of the other firemen, but owing to the fire having a good start before we arrived, there was nothing we could do to extinguish the flames, which in a short time had the building burned to the ground.

The fire was confined to the one building. The rain which fell in heavy showers during the blaze eliminated any danger of nearby buildings catching. The fire is said to have caught in the kitchen behind the stove and had made considerable headway before being discovered by Mrs. Trenholm who was awakened by a crackling noise. James Trenholm was overcome by smoke while attempting to extinguish the flames and was rushed to Dr. Townsend's office for treatment where he soon recovered. Capt. Trenholm was not at home. Very little of the furniture or personal belongings of the family were saved. Loss of building and furniture estimated at \$2500.00 (building \$2000.00, Furniture \$500.00)

Sentenced at Windsor

Sidney A. Rafuse, was today sentenced by Judge Henry Graham to six years in Dorchester Penitentiary for the part he played in the attempted robbery of the Shubenacadie branch of the Royal Bank of Canada on August 23, 1932. Rafuse was convicted on two charges, conspiring to rob and attempting to rob, the Shubenacadie branch of Royal Bank. On the conspiracy charge he got four years and on the attempted charge he was handed out two years. Sentencing to run concurrently. During the holdup of the bank, Gerald Freckleton, brother-in-law of Rafuse, was shot dead by the police who had been "tipped off" and were hiding in the bank when the attempt was made. Edson Boutillier, who gave the information to the police, the day previous, and in the

role of a special officer of the R.C.M.P. took part in the holdup, was severely wounded in the shoulder. This wounding was probably accidental. S.A. Rafuse entered the bank at 2:50 P.M. and engaged the manager, Mr. Robertson in conversation respecting Life Insurance. At 3:10 P.M. Freckleton and Boutilier entered and covered the staff of the bank and Rafuse with drawn pistols at the same time shouting "hands up". The police then came into picture and in the shooting that followed which was started by Freckleton, the latter was slain. Mr. Rafuse was Manager of the Louisburg Branch of the Royal Bank, from June 1922 to Nov 1931, and during that time was considered a man of excellent character. After leaving Louisburg he was employed in the Main Sydney Branch, of the Royal Bank until last spring when he was dismissed from the service. He then took up the Life Insurance business.

Moderately cold and remarkably clear with light to moderate westerly wind. A perfect day.

Ground bare and frozen and good ice for skating on all the ponds and lakes.

In the forenoon I went to Kennington Cove and took snapshots of the tablet and cairn which were erected there in the summer of 1930, also copied the inscription which is on the tablet in both English and French. On my way to the Cove, I motored as far as the end of the road leading to Artillery Cove and walked the rest of the way. Returning I walked all the way along the shore to the National Park where I spent a short time exploring a few spots on the marsh, west of the Old Fortress which I had not visited previously. On a slight elevation about two or three hundred yards in a westerly direction from where the New England Monument stands, I discovered the ruins of some work which were no doubt erected at the time of the siege of 1758. One of those looks like as if it had been a redoubt and was about 30 paces long by 15 wide. Large quantities of stone are lying around this spot, and also about 50 yards nearer the city wall, which look as if

they had been used in erecting offensive works by the besiegers. I returned home shortly before 6 P.M. somewhat tired after my long walk. All the bogs and marshes are frozen and the traveling is excellent considering the nature of the ground.

The inscription on the Kennington Cove tablet is in both French and English. The English version is as follows: "Wolfe Landing" "Here 8th June 1758, the Men of Brigadier James Wolfe's Brigade, after having been repulsed with heavy loss of the French troops entrenched westward, made their gallant and successful landing. Thus began the operations which ended on 26th July by the Capitulation of Louisburg." "This site donated by Daniel Archibald MacInnis" "erected 1930".
